

MG-PRO

BACK BAR COOLERS

Coping with the demands of a busy venue means Beverage counters ought to operate efficiently, to maintain temperature as bottles are taken out, stocks are replenished and doors are continually opened and closed. It also has to be robust enough to survive a punishing level of wear and tear.

The latest Beverage counters of MGPRO have been designed with these testing demands in mind. However they are also designed to look stylish and display premium bottled drinks to eye-catching effect.

Available as a one, two or three door model, the MGPRO Back Bar Coolers are capable of storing up to 270 nos. of 330ml bottles at 4°C to 10°C

MG-PRO
