

MULTIDECK COOLERS

Multideck coolers are one of the most popular refrigerated merchandisers for coffee shops, supermarkets, hotels, schools, universities, delicatessens, restaurants and hospitals. With the increase in 'grab & go' service, our Multideck coolers have never been in such demand!

Their designer style improves your front of house, while their clever layout maximizes every millimeter of retail space. MGPRO's Multideck range are perfect for front of house display, enhancing presentation and giving customers open, easy access to drinks, pre-packed snacks and dairy products.

KEY FEATURES

ENERGY SAVING

Setting new standards: To help reduce energy consumption we've introduced LED lighting as standard across the entire showcases and multideck coolers range. As well as cutting power consumption, they make the display look even more attractive and if you want the ultimate in energy efficiency, our optional front opening doors deliver substantial energy savings.

OPERATING TEMPERATURE

The ideal operating temperature in all multideck coolers is +4 to +6 degrees celcius at an ambient temperature of 26 degrees celcius.

MOBILITY

All multideck coolers and showcases are built with swivel and brake (no mark leaving) castors. This makes it easier for moving them around or to clean the area below the multideck cooler.

ADJUSTABLE SHELVES

All multideck coolers come with two glass shelves plus the bottom. The glass shelves are easily adjustable in height as per the requirement / application.

OPTIONAL / EXTRA

- Extra glass shelf is available.
- Extra lighting.
- Roll-down night blind.
- Opening glass doors.
- Front digital temperature display

TECHNICAL DATA

Outer Dimensions	48 x 27.56 x 51.57 inch
Temperature Range	+4 to +8 degrees C
Ambient temperature	26 degrees C
No. of Shelves	Two toughened black glass shelves
Specification of SS used for Inner Tank / Outer Body	SS 304
Specification of Glass	Toughened glass
Specification of Light	Water proof strip LED
Condensing Unit	No frost cooling
Refrigerant	R 134a
Material for structural work & body	SS 202
Frost free refrigeration system with soft cold airflow with blow fans	Yes
Electronic digital temperature controller with automatic defrost	Yes
Fibber Castors wheels	Two with brakes & two without brakes.
